

October 10, 1960

Dear Milt:

I am sending you two copies of the core drawing which has been prepared from information received during my visit of August 5 and verified September 28.

Would you please check the compatibility of the proposed design with your requirements. If the design proves satisfactory, please initial and note your approval on one drawing, returning it to our facilities as soon as possible. In event you are not in agreement with a dimension, please circle the dimension or area in dispute and mark in the recommended changes with a red pencil.

Release to the shop of the cores for the film order currently being prepared for you will be held up until drawing approval is obtained. In order that film shipment is not delayed, could you review and return the drawing by October 17, 1960.

A handwritten signature in cursive script, appearing to read "BLE".
